

Training to Enhance Manufacturing Technology and Green Productivity in Rice Mill Factory

Código de Beca: 2233

Nombre: Training to Enhance Manufacturing Technology and Green Productivity in Rice Mill Factory

Descripción: **TICA : Thailand International Cooperation Agency**

is a national focal point for Thailand's international development cooperation. TICA was established in 2004 to realize Thailand's aspiration to be a contributor of development cooperation. Believing that global challenges are best addressed by international cooperation and global partnership, today we continue to strengthen our contribution to achieve global development agenda through various capacity-building and human resources development programmes. In response to the recent changes in the global landscape of development cooperation, especially through the concept of South-South and Triangular Cooperation, TICA continues to realign our focuses in order to deliver Thailand's commitment to be a relevant partner in global agendas including the 2030 Agenda for Sustainable Development.

AITC : Annual International Training Course

was initiated in 1991 as a framework in providing short-term training for developing partners. Today, the AITC remains one of TICA's flagship programmes. It offers not only a training experience, but also a platform in exchanging ideas and establishing professional network among participants from across the developing world. Aiming at sharing Thailand's best practices and experience to the world, the AITC training courses focus on development topics of our expertise currently categorized under five themes namely; "Sufficiency Economy Philosophy" or SEP, Food Security, Public Health, Climate Change, and Other topics related to Sustainable Development Goals (SDGs).

Office of Industrial Economics, Ministry of Industry (OIE)

is the leading organization in Thailand through its mission of formulation, integration, and driving for policies, plans, and strategies industrial development towards the sustainability among the dynamic of domestic and international factors. OIE's mission also to analyze and study in the industrial economics situation in order to utilize for industrial development, cooperation, and international production network.

AITC Theme:

Food Security This training course falls under the AITC theme “Food Security”. There are different statuses of development and the competition of each developing country that may effect to the level of entrepreneurs of rice mill factory in their countries to get benef its in terms of adjusting business environment. If they could obtain the appropriate supports, the development of rice mill industry would speed up and benefit all stake holder involved. Since people of the world has similarity in common for the consumptio n of rice. There should be very useful if these countries take opportunities to share and exchange as well as learn from each other for the development of rice production, technical knowledge from advance experience through the technical assistance among t hem and Thailand as the world’s leading of rice exporter.

Ofrecimiento N° 2233.1

Nombre ofrecimiento: Training to Enhance Manufacturing Technology and Green Productivity in Rice Mill Factory

Información específica: **Course Objectives**

This training course aims at sharing Thailand's knowledge and experience regarding food security management in rice mill factory. The objectives are;

- To enhance knowledge, information and experience on environmental friendly and green productivity in rice mill factory technology.
- To build capacity and develop cooperation network among developing countries in the field of rice mill technology.
- To share information and practice on efficiency of natural resources endowment, energy saving and waste to energy technology in rice mill.

Course Outline

This training course focuses on how to apply manufacturing technology and green productivity in rice mill factory practices.

Topics of the training are as follow;

- Lecture on rice mill technology and environmental friendly rice mill technology
- Lecture on green productivity
- Lecture on energy saving in rice mill factory
- Study and Field visit
- Group work practice
- Group work presentation

Course Methodology

Training methodologies to be used during this training course include;

- Lecture
- Group discussion
- Presentation
- Study visit- practice

Assignment and Evaluation

- In-class participation
- Submission and presentation of "Country Report"
- Attendance –Participants are required to attend all activities organized during the course. TICA reserves the rights to revoke its fellowship offered or take

appropriate action in case a participant is in attendance of less than 90 percent of the training hours.

IMPORTANT

The course will be held in the month of december 2020, exact date still need to be confirmed
